

Respected Sir/Ma'am,

Sub: Invitation for Mock Placements on 17th of February, 2019.

Greetings from Sri Venkateswara College of Engineering!

The Forum of Economic Studies by Engineers and the Placement Cell of SVCE would like to take this opportunity to thank your organization for your kind support over the years.

The Mock Placements for the pre final year students has been held for the last 15 years during the month of March in order to analyze the skills of the students in terms of communication, aptitude and technical knowledge. It gives them an idea about the amount of preparation they have to undergo before they sit for their first company during the month of June. SVCE is the only college that invites HR's from all the reputed firms to conduct the interviews and give a few tips to the students to improve their chances of getting recruited. Last year around 800 students registered for the Mock Placements and nearly 90 HR's conducted the interviews.

The event consists of four stages – An online aptitude test, a personal interview, a technical interview and an optional group discussion. The test will be conducted one week prior to the Mock Placements, the section wise scores of which will be provided to you on the day of the event.

The interview rounds will be conducted on 17th of February. The interview panel, consisting of one HR and one technical personnel, will be given a batch of 10-14 students. The interview can range between 15 to 30 minutes each. The HR's can question the students and grade them according to certain criteria specified on the report that will be provided by us. The HR's can also conduct a group discussion if they wish. The interview round will start at 9:30 AM and conclude at around 3:00 PM including a break for lunch.

We would be deeply grateful to you if your company could participate in this year's Mock Placements. You can contact us at the phone number mentioned in the mail for clarity on any details regarding logistics or to confirm for the event.

Thanking you

Prof. S. Muraleedharan Training and Placement Officer
